“ This was my dad, it's been many years since he left and I truly miss him and our conversations. The day before he left me, we were making plans on me going to visit him for Thanksgiving but the following morning I got that call. Dad we had our share of problems but we were working together through them. Your military sturnness is still laying within me and many times it has come out. I thank you for that. I never understood why you were like that with us, but as I got older it's clear as to why. I miss you and I love you! I'm grateful that I got to be there to see you off to your new pain free home.
